

Conner: This has been up to a six year battle so we could focus on it but we can not guarantee that it will be done

Aldridge: It is always raised in IFC meetings but still no action has been taken, OSA is on our side

Conner: They are just letting them sit inside the B&G warehouse to do nothing

New Business:

Spring Semester Budget:

Aldridge: this semester was easier than last semester since there were less clubs, the allocation meetings are fairly cut and dry

Conner: Thanking aldrige for his effort in the process, most clubs had clean allocation requests, and we had far less than years previously, we did have to cut some, some clubs come once a year then they are done

Lichacz: Motion by line item, 2nd Quick, all in favor

(8:36) Faculty Meeting:

Conner: Giving the update on the faculty meeting

McLean: reached out to stimpert to clarify the new honor code, stimpert had not heard anything about the change until McLean had emailed him

Foster: He is not here in an official capacity but he wants to give his advice, Goes over process of the honor code, there is a discrepancy often in how that process goes, Townsend facilitate all of the honor code, he is to be an expert on the honor code, flaw in process between appeal and self reporting... 70 percent of them would not fail to report if they learned the process better...
