Fix fire pits outside of Brown Student Center

BE IT ENACTED BY THE STUDENT SENATE HERE ASSEMBLED:

SECTION I:

The three fire pits that are outside of brown student center need to fixed so that they can be used. When the builders built the fire pits, the builders made the pits too deep inside the fire pits. Each fire pit needs to be filled with a foot of gravel or put a sheet of iron or metal to cover a one foot radius inside the fire pit. The Middle fire pit also needs to be fixed so that the fire pit can drain correctly.

SECTION II:

When the fire pits are repaired and fixed, the Hampden-Sydney community can enjoy a nice fire on a cold day or night. The students can come together and sit down outside of the Tiger Inn and enjoy the fires and good conversation.

SECTION III:

Each fire pit needs to be filled with a foot of gravel or put a sheet of iron or metal to cover a one foot radius inside the fire pit. The Middle fire pit also needs to be fixed so that the fire pit can drain correctly.

SECTION IV:

Please start this project immediately.

SECTION V:
