

Hampden-Sydney College
Office of the Student Senate

Senate Item: 0013

Introduced By: Senator Conner J. Francis '20

Introduced on: 2018-09-10

Sponsored By: Senator Larry M. Pullen '19

Recycling Act of 2018

Campus Wide Recycling Initiative

BE IT ENACTED BY THE STUDENT SENATE HERE ASSEMBLED:

SECTION I:

Our goal is to implement a campus wide infrastructure for recycling that will be effective and will expand over the years. Recycling bins will be located in various locations across the campus. This initiative will create a self sustaining recycling program through the Building and Grounds Department and either STEPS Inc or a similar organization to dispose of the recycled materials off campus. There is no reason or excuse for Hampden-Sydney College to not have recycling as part of our everyday culture. With Environmental Studies and an Outdoor Education Program being established this year, recycling on campus only seems appropriate. The Environmental Club will help to inform students and faculty about the importance of recycling. We will also ensure that everyone on campus understands the proper ways to recycle. By establishing a recycling program here, we can become a more modern school and show the world that we are making progressive changes here at Hampden-Sydney College. This would be an enormous step in the right direction for the school, and it is time we make recycling a permanent part of the Hampden-Sydney College lifestyle.

SECTION II:

SECTION III:

The program should have properly labeled recycling receptacles in every main passageway on campus, along with high traffic areas on sidewalks. They should be placed nearby current
